Subscription Price:
United States and Canada, $6.00 Per Year.

Great Britain, 21 Shillings; Single Copies, 3/6.
Foreign, $6.00 Per Year; Single Copies, 75 Cents.

VOLUME II MAY, 1920 NUMBER 1

THE JOURNAL OF INDUSTRIAL HYGIENE

AND ABSTRACT OF THE LITERATURE

EDITOR, UNITED STATES
David L. Edsall, M.D., S.D.

HONORARY CONSULTING EDITOR
Thomas M. Legge, M.D., D.P.H.

EDITOR, GREAT BRITAIN
A. F. Stanley Kent, A.M., D.Sc.

The Mortality from Respiratory Diseases in the Glass Industry

Surgery and Increased Production

The Modern Specialist in Unrest: A Place for the Psychiatrist in Industry

Social Work and Industrial Hygiene

The Successful Industrial Medical Department

Industrial Diseases under the Workmen's Compensation Act

Poisons in the Rubber Industry: The Rash Produced by Hexamethylene-Tetramine and a Means of Prevention

Published Monthly at 1 Divinity Avenue, Cambridge 38, Boston, Massachusetts
by Harvard University Press

Great Britain: Macmillan and Co., Ltd., St. Martin's Street, London, W.C. 2

Entered as second-class matter, at the Post Office at Boston, Mass., under Act of March 3, 1879. Published monthly.
Copyright, 1920, by Harvard University Press.

CONTENTS OF VOLUME II

MAY, 1920. NUMBER I

PAGE

The Mortality from Respiratory Diseases in the Glass Industry. Frederick L. Hoffman, LL.D., Third Vice-President and Statistician, the Prudential Insurance Company of America, Newark, N. J. 1

Surgery and Increased Production. An Indication of the Methods Available to Decrease the Economic Loss Due to Industrial Injuries. A. C. Burnham, M.D., Attending Surgeon, Volunteer Hospital, New York City 6

The Modern Specialist in Unrest: A Place for the Psychiatrist in Industry. E. E. Southard, M.D., Professor of Neuropathology, Harvard Medical School 11

Social Work and Industrial Hygiene. A. Warren Stearns, M.D., Medical Director, Massachusetts Society for Mental Hygiene 20

The Successful Industrial Medical Department. Essential Co-operation of Executives and Employees Gained by Proper Methods. M. Burnett Franklin, M.D., Medical Officer, E. F. Houghton and Co., Philadelphia 22

Industrial Diseases under the Workmen's Compensation Act. Thomas M. Legge, M.D., D.P.H., His Majesty's Medical Inspector of Factories 25

Poisons in the Rubber Industry. The Rash Produced by Hexamethylene-Tetramine and a Means of Prevention. Norman A. Shepard and Stanley Krall, Research Laboratory of the Firestone Tire and Rubber Company, Akron, Ohio 33

Book Reviews 39

JUNE, 1920. NUMBER 2

Ether Poisoning in the Manufacture of Smokeless Powder. Alice Hamilton, M.D., Special Investigator, United States Bureau of Labor Statistics, and Assistant Professor of Industrial Medicine, Harvard Medical School, and George R. Minot, M.D., Assistant Professor of Medicine, Harvard Medical School 41

Report of Cases of Phosphorus Necrosis. Thomas M. Legge, M.D., D.P.H., His Majesty's Medical Inspector of Factories 50

The Economic Aspects of Industrial Medicine. Cecil K. Drinker, M.D., Associate Professor of Applied Physiology, Harvard Medical School, and Katherine R. Drinker, M.D., Managing Editor, Journal of Industrial Hygiene 53

Medical Supervision in Factories. Thomas M. Legge, M.D., D.P.H., His Majesty's Medical Inspector of Factories 66

The Pharmacology of Heavy Metals. William Salant, M.D. 72

Appeal for Food from the Viennese Factory Inspectors 79

Book Notices 80

381929

JULY, 1920. NUMBER 3

PAGE

Health Hazards in the Pearl Button Industry. E. G. Birge, M.D., and L. C. Havens, M.D., Division of Preventive Medicine and Hygiene, State University of Iowa, Iowa City, Iowa 81

Disposition of Tuberculosis in Industrial Organizations. John S. Billings, M.D., Director, New York Tuberculosis Association 90

Anthrax. Thomas M. Legge, M.D., D.P.H., His Majesty's Medical Inspector of Factories . 96

Industrial Hygiene in the High School of Commerce. Michael Levine, Department of Biology in the High School of Commerce, New York City 103

The Housing Problem in Great Britain and Ireland. John S. Hodgson, Secretary of Housing Board, Massachusetts Department of Public Health 106

Phthisis and Occupation. Sir Thomas Oliver, M.A., M.D., Professor of Practice of Medicine, University of Durham and College of Medicine, Newcastle; Consulting Physician, Royal Victoria Infirmary, Newcastle-upon-Tyne 115

Book Reviews 120

AUGUST, 1920. NUMBER 4

Industrial Poisoning in the Manufacture of Aeroplanes, Explosives and Dyes. Thomas M. Legge, M.D., D.P.H., His Majesty's Medical Inspector of Factories . . 121

Cadmium Poisoning. G. Arbour Stephens, M.D., B.S., B.Sc. (Lond.), Certifying Factory Surgeon, Swansea, and Hon. Physician, Royal Cambrian Institution for the Deaf . . 129

Industrial Lighting Codes. Louis Bell, Ph.D., Consulting Electrical Engineer 133

Chronic Poisoning from Cyanogen Chloride. C. I. Reed, Department of Physiology, University of Kansas 140

Welfare in Factories and Workshops. A. M. Anderson, C.B.E., His Majesty's Principal Lady Inspector of Factories 144

Book Reviews 165

Notices 166

SEPTEMBER, 1920. NUMBER 5

Efficiency of the Palmer Apparatus for Determining Dust in Air. S. H. Katz, Assistant Physical Chemist, Bureau of Mines; E. S. Longfellow, Assistant Chemist, Bureau of Mines; and A. C. Fieldner, Supervising Chemist, Bureau of Mines 167

The Cost of Venereal Disease to Industry. Ray H. Everett, Associate Director, Department of Public Information, American Social Hygiene Association 178

The Mental Hygiene of Industrial Workers. Carl Scheffel, Ph.B., M.D., American Can Company of Massachusetts 182

Ambulance and First Aid. John C. Bridge, F.R.C.S., Ed., His Majesty's Medical Inspector of Factories. 189

Mercurial Poisoning in the Manufacture of Clinical Thermometers. William Jacobsohn, M.D., Industrial Medical Inspector, Division of Industrial Hygiene, Department of Health, City of New York 193

The Health of the School Teacher. An Analysis of a Series of Physical Examinations of a Group of Normal School Students. Ralph E. Wager, Department of Biology, Northern Illinois State Normal School 197

Notices 205

OCTOBER, 1920. NUMBER 6

PAGE

Fatigue and Efficiency of Smokers in a Strenuous Mental Occupation. J. P. Baumberger and E. G. Martin, Laboratory of Physiology, Stanford University 207

The Problem of Emergency Treatment in Small Factories. A. C. Burnham, M.D., Director, First Aid, Atlantic Division of the American Red Cross, New York City . 215

Review of the Recent Advances in Industrial Medicine and Surgery. Proposed Scheme of Application of these Principles in a City of Small Industries. James E. M. Thomson, M.D., Lincoln, Nebraska 219

The Venereal Campaign among Railway Employees. Archibald E. Chace, M.D., F.A.C.S., Chief Surgeon, St. Louis Southwestern Railway Lines, Texarkana 224

Sub-Standard Workmen. W. Irving Clark, Jr., M.D., Medical Director, Norton Company, Worcester, Mass. 228

Book Notices 232

NOVEMBER, 1920. NUMBER 7

Health in Mercantile Establishments. I. The General Principles of Store Medical Service. Arthur B. Emmons, 2d, M.D., Director, Harvard Mercantile Health Work, Boston, Mass. 233

Report of Two Cases of Di-Methyl-Sulphate Poisoning. Ferdinand G. Mohlau, M.D., Surgeon in Charge, National Aniline and Chemical Company, Buffalo 238

The Case for Pithead Baths in Great Britain. W. E. Cossons 241

Observations on the Toxicity of Tetranitromethylaniline (Tetryl), Tetranitroxylene (T.N.X.), Tetranitraniline (T.N.A.), Dinitrodichlorbenzene (Parazol) and Metanitraniline. H. Gideon Wells, M.D., Director, Otho S. A. Sprague Memorial Institute, in collaboration with Julian H. Lewis, W. D. Sansum, W. B. McClure, and H. O. Lussky, Otho S. A. Sprague Memorial Institute, Chicago 247

The Place of Industrial Medicine in Medical Science. Frank Shufflebotham, M.A., M.D. (Cantab.), M.R.C.P. (London) 253

Points in the Detection of Industrial Fatigue and Measures for its Possible Complete Elimination. Emery R. Hayhurst, Ph.D., M.D., Professor of Hygiene, Ohio State University 256

Determination of Aniline Vapors in the Air. Miriam Stewart Iszard, M.A., Instructor, Laboratory of Hygiene, University of Pennsylvania 259

DECEMBER, 1920. NUMBER 8

Acid Burns and their Treatment. G. A. Welsh, M.D., Medical Officer to H. M. Factory, Gretna 267

Some Industrial Eye Affections. John C. Bridge, F.R.C.S.E., D.P.H., His Majesty's Medical Inspector of Factories 274

Health in Mercantile Establishments. II. Medical Records. Arthur B. Emmons, 2d, M.D., Director, Harvard Mercantile Health Work, Boston, Mass. 279

A Statistical Study of Accidents in the Cotton Mills, Print Works and Worsted Mills of a Textile Company. Donald S. Gates, Student, Graduate School of Business Administration, Harvard University. 286

Industrial "Gassing" and the Edward Medal. Thomas M. Legge, M.D., D.P.H., His Majesty's Medical Inspector of Factories 293

Experimental Trinitrotoluene Poisoning. Samuel R. Haythorn, M.D., William H. Singer Memorial Research Laboratory, Pittsburgh, Pa. 298

Book Reviews 319

JANUARY, 1921. NUMBER 9

PAGE

Employment and the Distribution of Industries in their Relation to the Growth and Physical Development of the Young Wage Earner. Harry J. Wilson, O.B.E., H.M. Superintending Inspector of Factories for Scotland 321

The Effect of the Inhalation of Gases. G. A. Welsh, M.D., Medical Officer to H. M. Factory, Gretna 328

Industrial Tuberculosis and the Control of the Factory Dust Problem. Part I. C.-E. A. Winslow, Dr. P.H., Professor of Public Health, Yale School of Medicine, Senior Sanitarian, U.S.P.H.S. (Reserve), and Leonard Greenburg, C.E., Assistant Sanitary Engineer, U.S.P.H.S. (Reserve) 333

Estimation of Toxic Water Soluble Dust with the Palmer Apparatus. Miriam Stewart Iszard, M. A., Instructor, Laboratory of Hygiene, University of Pennsylvania . 344

Studies in Industrial Physiology: Fatigue in Relation to Working Capacity. I. Comparison of an Eight-Hour Plant and a Ten-Hour Plant. A Reply. Josephine Goldmark and Mary D. Hopkins 348

Book Reviews 352

FEBRUARY, 1921. NUMBER 10

Origin and Development of the Factory Medical Service in Belgium. D. Glibert, M.D., Inspector-General and Chief of the Factory Medical Service, Belgium. With an Addendum by W. F. Dearden, M.R.C.S., D.P.H., Certifying Factory Surgeon, Manchester 353

Blood Changes in Lead Workers. Arthur Sellers, M.D., D.P.H., Lecturer, Practical Comparative Pathology, University of Manchester; Pathologist, Children's Hospital, Manchester; Research Fellow, Public Health Laboratory, Manchester 361

The Art, Not the Science, of Industrial Medicine. C. C. Burlingame, M.D., South Manchester, Conn. 368

Hygienic Installations in Modern Industries. Louis Dejardin, Honorary Director General of Mines, Belgium 374

Industrial Tuberculosis and the Control of the Factory Dust Problem. Part II. C.-E. A. Winslow, Dr.P.H., Professor of Public Health, Yale School of Medicine, Senior Sanitarian, U.S.P.H.S. (Reserve), and Leonard Greenburg, C.E., Assistant Sanitary Engineer, U.S.P.H.S. (Reserve) 378

Book Notices 396

MARCH, 1921. NUMBER 11

Industrial Medicine and the Immigrant. Michael M. Davis, Jr., Ph.D., and Linda James 397

The Anthrax Problem in Horsehair. Henry Field Smyth, M.D., Dr.P.H., Assistant Professor of Industrial Hygiene, School of Hygiene, University of Pennsylvania . . . 423

A Study of Pulmonary Silicosis. E. L. Middleton, M.D. (Ed.), D.P.H., Medical Officer to the Welsh National Memorial (Tuberculosis) Association 433

Book Reviews 450

APRIL, 1921. NUMBER 12

PAGE

The Campaign against Miners' Nystagmus in the Colliery District of Liège, Belgium. N. Stassen, M.D., Medical Officer to the Liège Collieries 451

Tetrachlorethane Poisoning and its Prevention. D. C. Parmenter, M.D., Assistant in Industrial Hygiene, Harvard Medical School, and Instructor in Hygiene, Harvard University 456

Discussion of Public Health Bulletin No. 106, Comparison of an Eight-Hour Plant and a Ten-Hour Plant. A. H. Ryan, M.D., Director, Industrial Hygiene, Scovill Manufacturing Company 466

A Reply to Discussion of Public Health Bulletin No. 106, Comparison of an Eight-Hour Plant and a Ten-Hour Plant. P. Sargant Florence, Ph.D., Associate Sanitarian, U.S.P.H.S. (Reserve) 479
